Mass Mentoring Partnership (MMP) is fueling the movement to expand empowering youth-adult relationships to meet the needs of communities across Massachusetts. We work with mentoring programs and youth development organizations to assess programmatic needs and organizational capacity to provide customized strategies that strengthen youth, families, and communities.

- **Why Mentoring?**

Mentoring is a proven youth development strategy. Quality Mentoring can help a young person realize his/her potential and stay on the right path. Mentoring is also an intervention strategy for youth who have already been involved with violence, drugs, alcohol or other risky behaviors.

- **What does an Ambassador do?**

Ambassadors are placed, full-time, at mentoring programs and youth-serving organizations statewide to help build their capacity in the following program areas: mentoring program

development and support; mentor/mentee training; match support; and mentor

recruitment/marketing. Ambassadors are not teachers or mentors and **do not** provide direct mentoring service. As an Ambassador you can develop a new mentoring program, develop and lead a regional marketing campaign to recruit diverse mentors; strengthen a girls' self esteem mentoring program; improve a mentoring program's overall support to volunteers; create and lead volunteer and youth trainings and program curriculum; create fun activities for mentors and mentees, and more!

- **What kind of work experience do I need?**

Ideally, Ambassadors have some previous volunteer and leadership experience either during or post college. Previous office experience, customer service or service project or event planning experience is helpful as well. Candidates should have a demonstrated commitment to service and a connection to mentoring is usually a plus. If selected you would receive 40 hours of training on the A-Z's of developing and operating a quality youth mentoring program, along with technical assistance around your project as needed, which is why this is a great professional development opportunity! You will also have a direct onsite supervisor to coach your work.
