Organization Profile:

Founded in 1999, BUILD uses entrepreneurship-based, experiential learning to ignite the potential of youth in under-resourced communities and equip them for high school, college and career success. BUILD's unique program offers students a four year entrepreneurship experience designed to reinforce the Common Core, develop 21st Century Skills and motivate student engagement in school. Starting in 9th grade, BUILD students work with their peers and community mentors to develop business ideas, pitch to funders and launch real businesses. As they journey through high school, BUILD provides students with support in navigating the college application process and the opportunity to explore college and career options, while expanding their businesses or opting into community internships.

BUILD currently serves over 1,400 high school students at programs located in the San Francisco Bay Area; Washington, DC; and Boston, MA and launched operations in New York City in 2015. Over the next ten years, BUILD will strategically expand its operations to serve at least ten regions across the country, leading more students to graduate from high school prepared for future success each year.

BUILD is made up of a diverse, results driven and passionate team who believe in the potential of every student and the power of entrepreneurship-based, experiential learning to transform the education landscape. We work in a collaborative environment where perseverance, flexibility, cross-cultural understanding and an entrepreneurial spirit are encouraged and celebrated. Project Description:

BUILD relies heavily on the support of its team of dedicated mentors. These are the adults who have the most contact with and the greatest impact on our students. BUILD Boston partners with seven of Boston's Public Schools. As such, capacity building around our mentoring program is vital to the growth and success of our

operation. BUILD mentors volunteer two hours each week throughout the school year (October – June), helping our students develop and run small businesses, while providing personal support and development. Our mentor program is made up of co-mentors working together with a team of four to six students. Next year, we are planning to serve 450-500 students in our seven partner schools. Therefore, one of our project goals is to recruit 170 mentors.

Our Ambassador will support the following service areas:

- Mentor Recruitment and Marketing
- Mentor Support
- Mentor Training
