AFFILIATE OF MENTOR

BUILDING THE MENTORING MOVEMENT

Since 1992, Mass Mentoring Partnership (MMP) has been the go-to resource for relationship development and capacity building support in the Commonwealth. A state Affiliate of MENTOR National and the leader of the MA Mentoring Movement, MMP believes positive and high quality relationships are a key to retaining and supporting students and those in the field of education. We have bolstered this belief, backed with research, by providing training and consultation services, while focusing on relationship-centered practices to improve access to, and the quantity of, positive mentoring relationships in our schools and on campuses.

WHY MENTORING?

Mentoring is good for your school and for your community. Learn more about the proven benefits.

PROFESSIONAL DEVELOPMENT - Site-specific opportunities that range from a single session to longer-term projects curated to address your organizational or programmatic needs. Customized plans may include: staff/teacher training sessions, population-specific supports, or match recruitment assessment.

CONSULTATION - MMP can support your school in assessing readiness to start a mentoring program, provide technical assistance throughout the planning and design process, and ultimately develop a mentoring program to meet your specific needs. Mentoring models may include: partner program collaboration for group or individual mentoring, speed mentoring events, or a Success Mentoring Program.

YOUTH CENTRIC EVENTS AND TRAININGS - Work with MMP to create a customized training plan or event, offering support to your students engaging in youth-initiated mentoring. Plans can be designed with the goal of developing students' knowledge, skills, and ability to develop their own social networks.

ENHANCING COLLEGE /CAREER READINESS AND YOUTH WORK PROGRAMS - Work with MMP to ensure your workforce development and/or career/college readiness program is designed for student success. Create a customized plan to engage your participants while focusing on a relationship-centered approach. Plans may include one or more of the following: training for students, training for supervisors/mentors, training for college/career coaches.
